### FRIDAY FISH FRY

St. Peter Parish, Ashton will have a drive-thru Friday Fish Fry from 4:30 to 7:30 pm or until the food runs out on March 26 and April 16.

“To celebrate the Gospel of life means to celebrate the God of life the God who gives life...In every child which is born and in every person who lives or dies we see the image of God’s glory. We celebrate this glory in every human being, a sign of the living God, an icon of Jesus Christ” (The Gospel of life 84).”

### LOOKING FOR VOLUNTEERS

We will be resuming coffee and donuts after all Sunday Masses starting the weekend after Easter.

We are looking for volunteers to assist with acquiring the food, setup, serving and clean-up.

Please call Bill or Joy at: 608-924-1314 if you can help.

“I will be their God and they shall be my people.”

Jeremiah 31:33

What does it mean to be God’s people? It means we recognize that everything we have and everything we are belongs to God. We aren’t “owners” of anything, we are merely “stewards” of the gifts God has given us. It means we are willing to use our gifts and our lives to care for our family, our neighbors and for people we don’t know, just as God cares for each of us.

**Statement from the diocese on vaccines:**

There is no Covid-19 vaccine yet that has received US Food & Drug Administration (FDA) approval, and the three vaccines that have received emergency use authorization by the FDA are not morally irreproachable due to their use of abortion-derived cell lines in some phase of vaccine design, production, or testing. The Johnson & Johnson/Janssen vaccine is the most morally compromised with the use of abortion-derived cell lines in its production process. The Pfizer and Moderna vaccines used abortion-derived cell lines only in the testing phase. Thus, you are strongly encouraged to avoid the Johnson & Johnson/Janssen vaccine if you have the option to choose one of the other currently-available vaccines. In the current environment, it is morally acceptable for individuals to choose to receive any of the currently available vaccines without moral guilt, with this strong moral preference for choosing the Pfizer and Moderna vaccines based on choosing the lesser evil, and while doing so under protest, and assessing significant factors, including any individual limitation to choose among the currently-available vaccines. Individuals may be led for serious reasons to refuse in good-faith any currently available vaccine due to religious, safety, or personal reasons, even in light of the proper Christian concern for public health, the common good, and concern for the most vulnerable amid the presence of a contagious disease.
