LOOKING FOR VOLUNTEERS

We will be resuming coffee and donuts after all Sunday Masses starting the weekend after Easter.

We are looking for volunteers to assist with acquiring the food, setup, serving and clean-up.

Please call Bill or Joy at: 608-924-1314 if you can help.

“Like us, Christ entered the world through the womb of a woman. He willingly experienced the fullness of human suffering. He breathed his last on the Cross at Calvary in order that He might save us. Therefore ‘God is the foundation of hope: not any god, but the God who has a human face and who has loved us to the end’ “ (Spe salvi 2007, Liberia Edrice Vaticana. Used with permission. TEC Retreat #181 Coming to St. Cecilia Wisconsin Dells: The dates are April 9-11 with a noon start on Friday. TEC (Together Encountering Christ) is an inter-generational movement of the Catholic Church especially designed to help meet the spiritual needs of Catholic Christians. Although it is an amazing experience for anyone 15 years of age or older, it can be especially rewarding for those youth who are preparing for or have been recently Confirmed, adults in the RCIA program, and those who are actively seeking to become stronger in our Catholic Faith. Frs. Eric Sternberg and Greg Ihm are the Spiritual Directors. We are excited to be hosting this in person retreat as we all 'climb out of the isolationism' of the last 12 months. Come and be renewed!! Jeff Davis is the director and can be reached at 262.483.7867. Applications and more information about TEC can be found at <https://madisondiocese.org/tec>

“Abortion is inherently different from other medical procedures because no other procedure involves the purposeful termination of a potential life.”

Statement from the diocese on vaccines:

There is no Covid-19 vaccine yet that has received US Food & Drug Administration (FDA) approval, and the three vaccines that have received emergency use authorization by the FDA are not morally irreproachable due to their use of abortion-derived cell lines in some phase of vaccine design, production, or testing. The Johnson & Johnson/Janssen vaccine is the most morally compromised with the use of abortion-derived cell lines in its production process. The Pfizer and Moderna vaccines used abortion-derived cell lines only in the testing phase. Thus, you are strongly encouraged to avoid the Johnson & Johnson/Janssen vaccine if you have the option to choose one of the other currently-available vaccines. In the current environment, it is morally acceptable for individuals to choose to receive any of the currently available vaccines without moral guilt, with this strong moral preference for choosing the Pfizer and Moderna vaccines based on choosing the lesser evil, and while doing so under protest, and assessing significant factors, including any individual limitation to choose among the currently-available vaccines. Individuals may be led for serious reasons to refuse in good-faith any currently available vaccine due to religious, safety, or personal reasons, even in light of the proper Christian concern for public health, the common good, and concern for the most vulnerable amid the presence of a contagious disease.
